ocufuse

PARTNERSHIP DECK · 2026

Put your eye care product in front of people who look after their eyes

Ocufuse is a web app and blog about everyday eye comfort: an eye journal, visual games for screen breaks and plain guides. Brands reach our readers through clearly labelled placements and honest reviews.

WHAT YOUR BRAND GETS

More than an ad: your product where people choose what to buy

Featured where people compare

Your product, its photo and our note in a Top 5 or Top 10 list, with a button to your shop.

Tested, then written

We use your product before we write about it, so readers get a real opinion they can act on.

Built to be found in search

Articles answer questions people type into Google. 181 of our pages are in Google's index.

Live for at least 12 months

Articles and list picks stay up for a year or more, not a post that is gone by tomorrow.

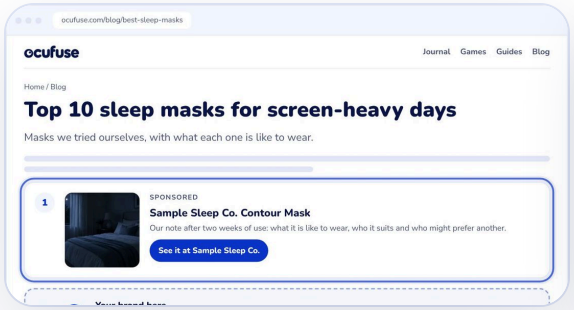

Trusted context

Sourced articles, clear Sponsored labels and no health claims. Readers trust what sits next to you.

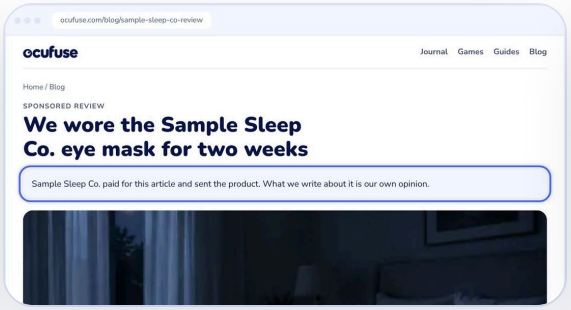

You see the results

After 30 days: page views and clicks on your link. Links carry UTM tags, so visits show in your own analytics.

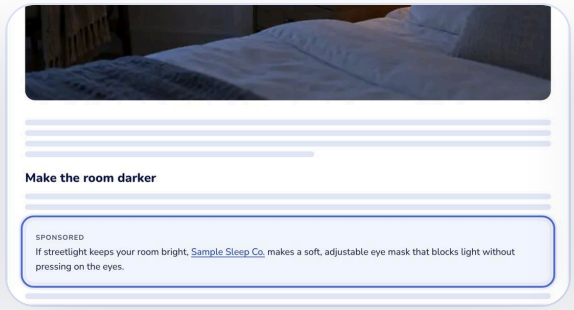

WHERE YOU CAN APPEAR

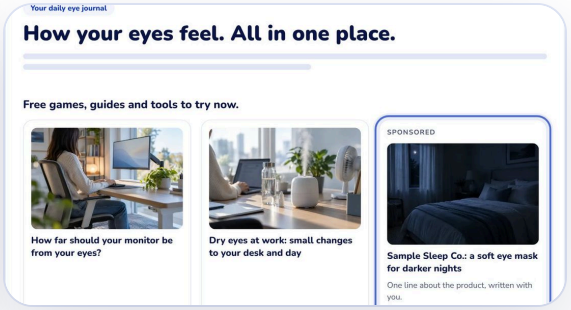

Featured pick in a list

Sponsored review

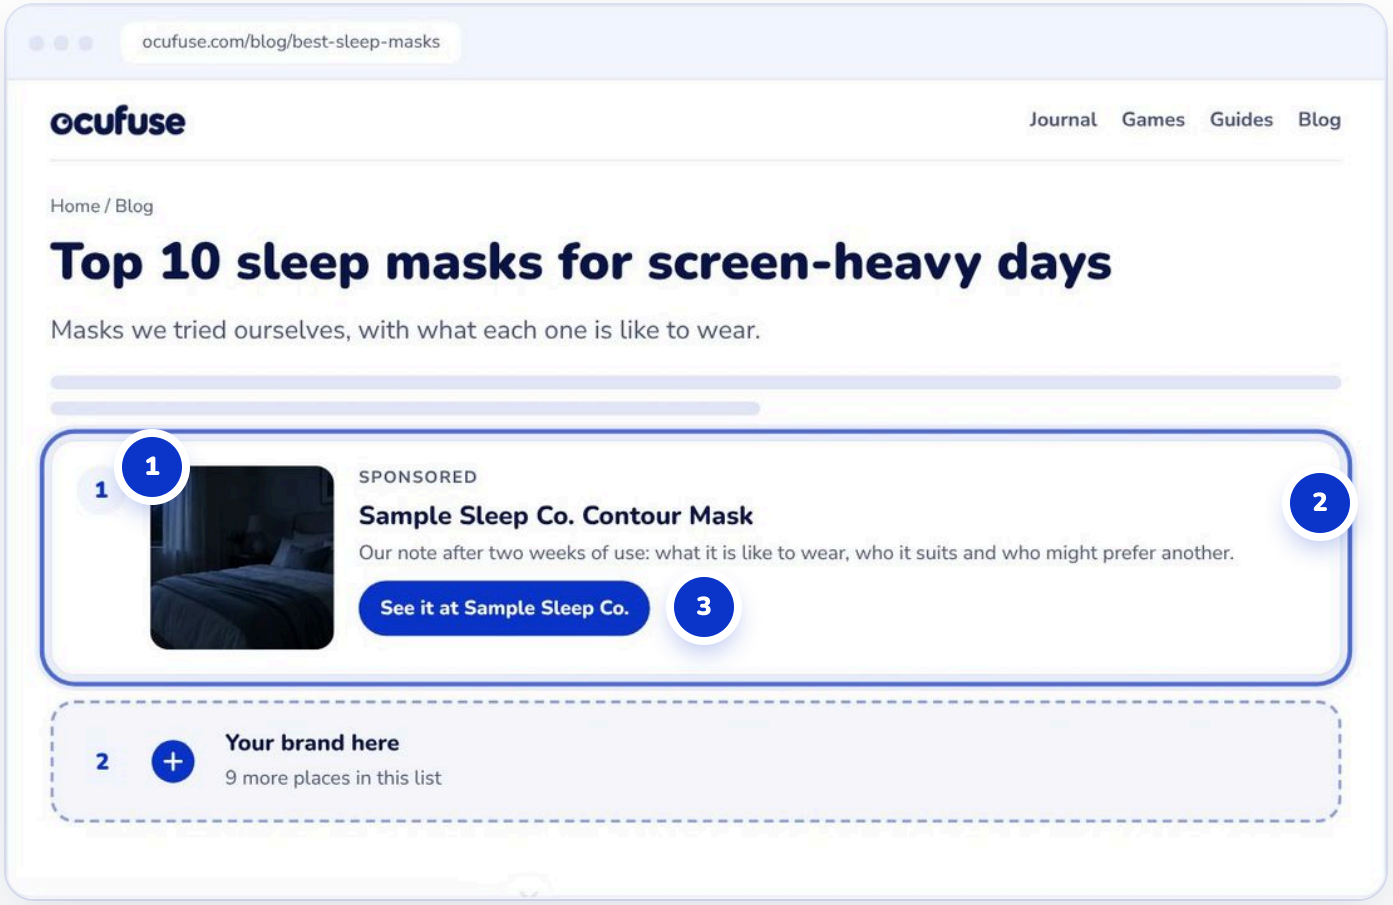

Mention inside an article

Homepage card

FEATURED PICK

Your product in a Top 10 list, where people compare

Example placement on a live page layout. Sample Sleep Co. is not a real brand.

1 **Rank and product photo**

Your product with its photo and its place in the list. First position is one brand only.

2 **Our note after using it**

What it is like to use, who it suits and who might prefer another. Honest notes are why readers trust a list.

3 **A button to your shop**

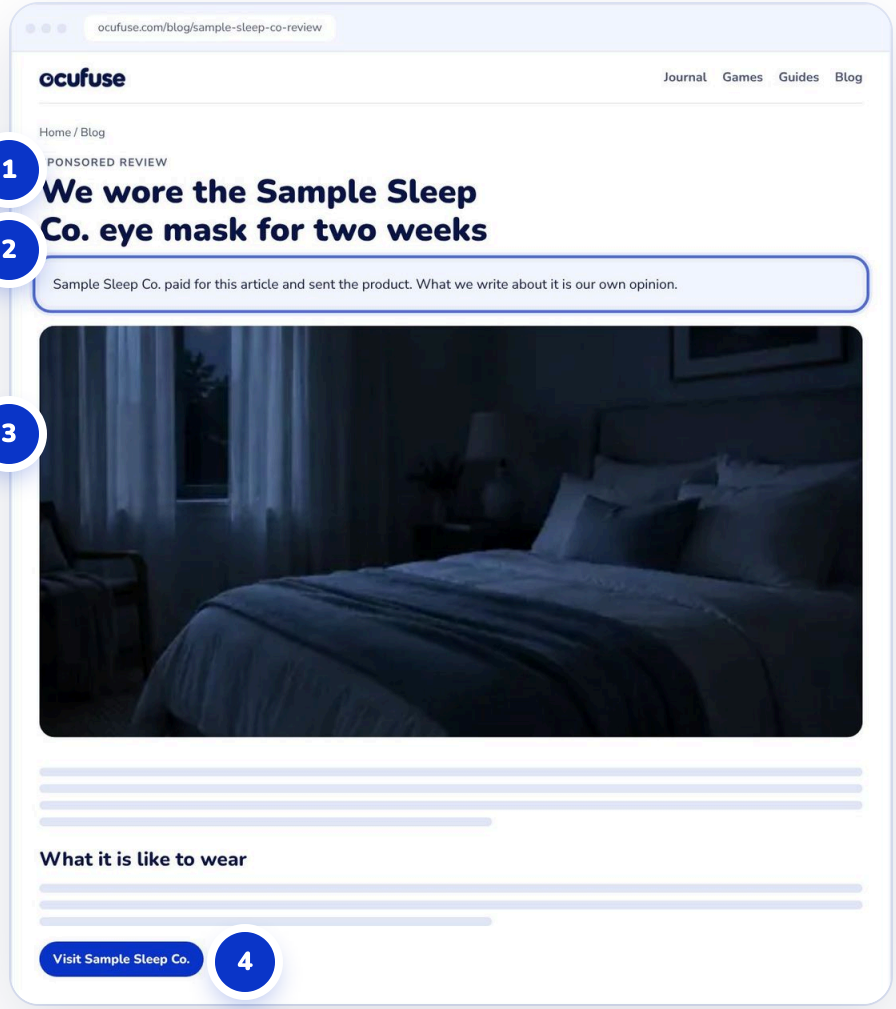

Straight to your product page, labelled Sponsored, with UTM tags for your analytics.

Lists we are writing (up to 10 brands each)

- Everyday sunglasses
- Glasses frames
- Reading glasses
- Cases, chains and straps
- Sleep masks
- Desk lights for screen work
- Humidifiers for the home office
- Eyelid wipes
- Eye makeup removers
- Eye patches for kids
- Kids' glasses
- Kids' sunglasses
- Lens cleaners and anti-fog sprays

SPONSORED REVIEW

A whole article about your product, after we have used it

1 Its own page on ocufuse.com

A full article named after your product, listed with our other articles and live for at least 12 months. People who search for your product can land on it.

2 An open disclosure line

Readers see that you paid and that the opinion is ours. That openness is what makes the review believable.

3 Real use, real photos

We use your product first and write what it is like: who it suits, what to know before buying.

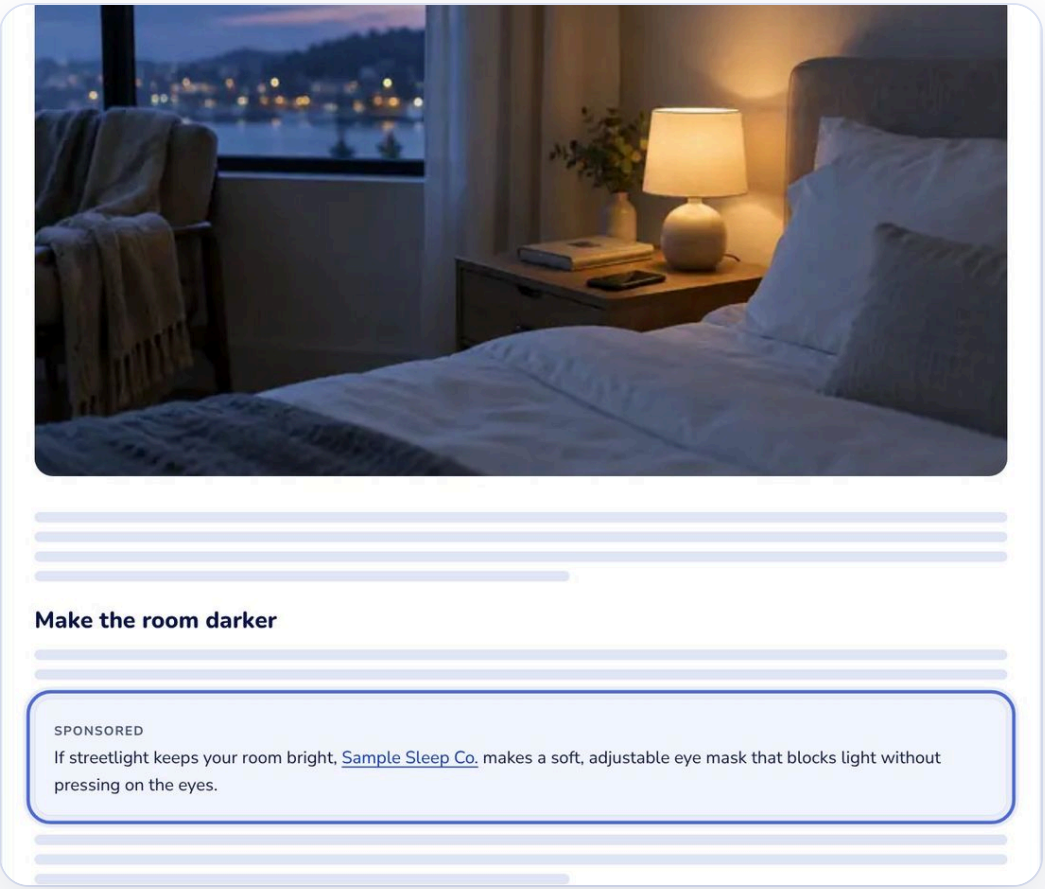

4 Links to your site

Buttons to your product page, labelled Sponsored. You check the facts before it goes live.

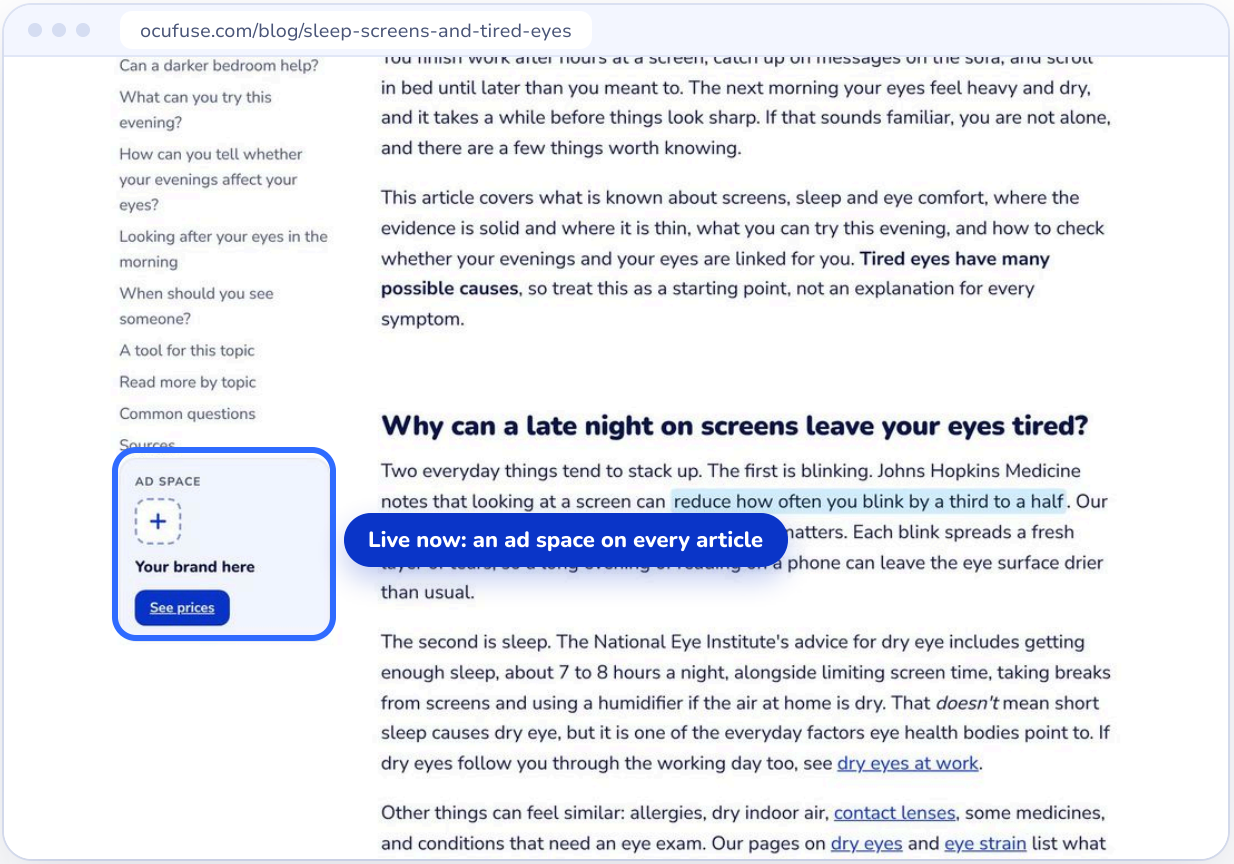

Example placement. Sample Sleep Co. is not a real brand.

INSIDE THE ARTICLES

Next to the answers people came to read

Example in-article mention. Sample Sleep Co. is not a real brand.

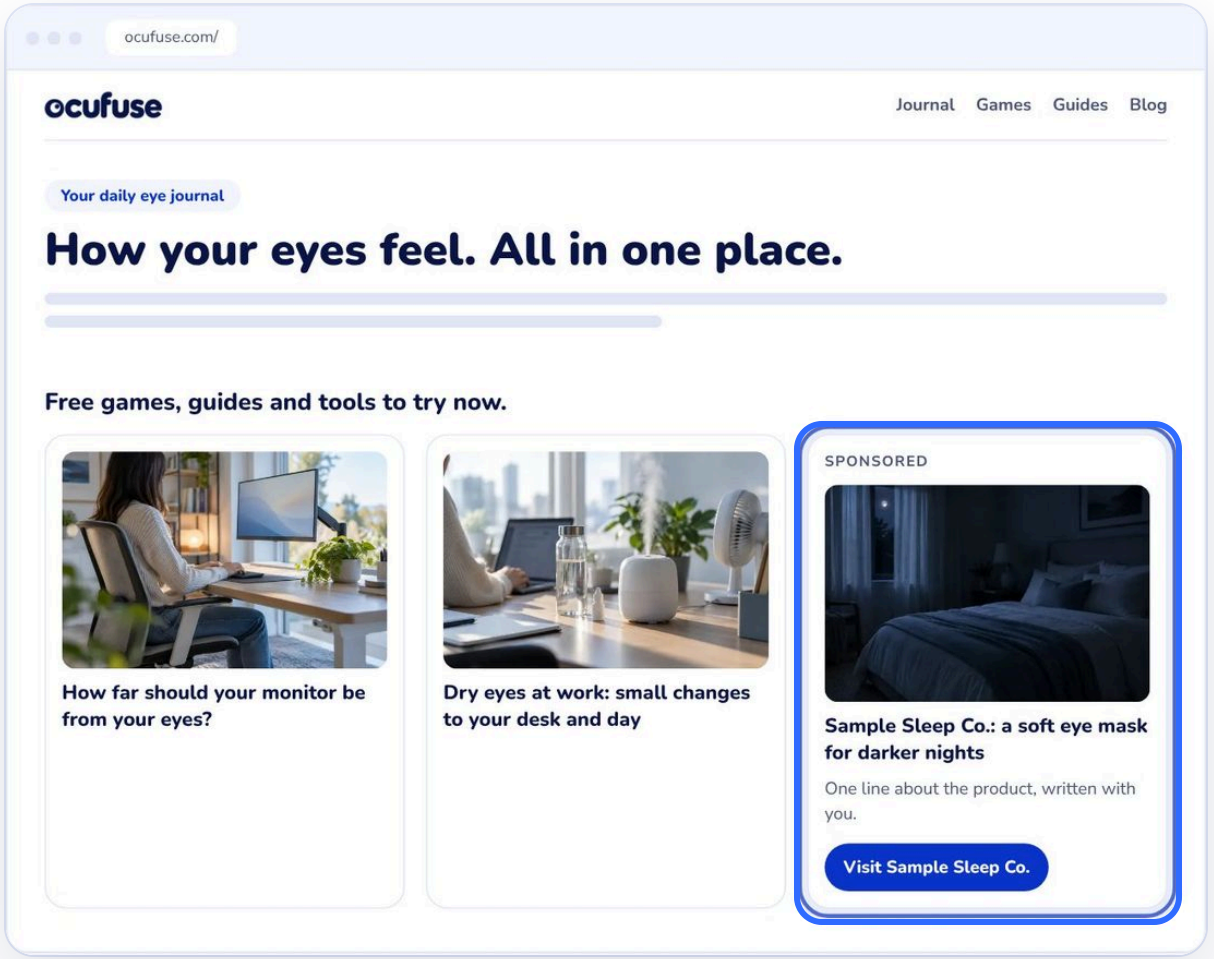

Live screenshot, 30 October 2026. The space is open.

Choose from 79 articles on screens, sleep, dry eyes, glasses and eye appointments. One sponsor per article; we write the paragraph in our plain style and you approve it.

HOMEPAGE SPOT

One brand a month on the home page

Example placement. Sample Sleep Co. is not a real brand.

1 **Yours alone for the month**

One sponsor at a time, so your card is the only ad on the page.

2 **Among our own picks**

The card sits next to our most useful articles and free tools, in the reading section of the page.

3 **Your image, one line, one button**

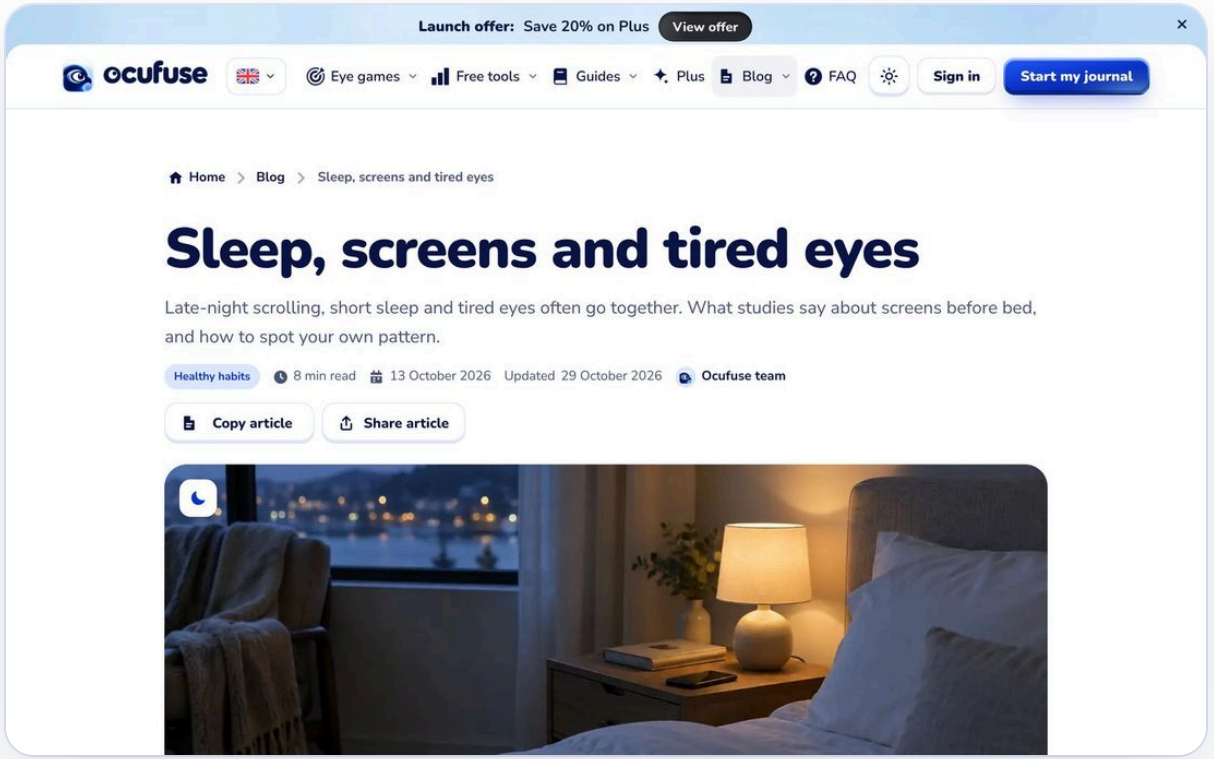

We write the line with you. The button goes to your product page with UTM tags.

4 **Pairs with a review**

Booked with a review and a pick, it sends readers to the full article about your product.

SEARCH AND LASTING VALUE

Built to be found, and to stay up

A live article: clear title, reading time, publish and update dates, and a named source list at the end.

Does using your phone in the dark damage your eyes?

How far should your monitor be from your eyes?

Is dark mode better for your eyes?

Sunglasses UV ratings: what the labels mean

79

articles, each written around a question people search for

12+

months every article placement stays live

Our policy on ocufuse.com/partners

30

days until your report: page views and clicks on your link

From Google Analytics 4

Pages carry structured data (breadcrumbs, lists, FAQs) so search engines read them well. Sponsored links are marked rel="sponsored", as Google asks: the value is readers and clicks, not link building. We never promise rankings.

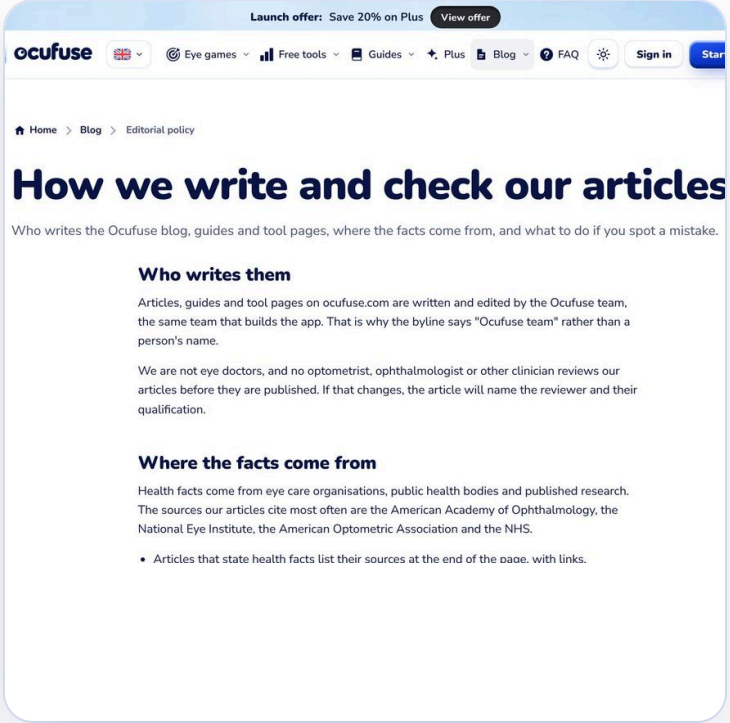

HOW WE KEEP IT HONEST

Readers trust us because ads never pass as advice

1. CDC (2016): 1 in 3 adults don't get enough sleep
2. CDC: About sleep, tips for better sleep
3. National Eye Institute: Dry eye (updated August 2025)
4. Johns Hopkins Medicine: Protect your eyes from too much screen time
5. Chang AM et al., PNAS, 2015: Evening use of light-emitting eReaders negatively affects sleep, circadian timing, and next-morning alertness
6. Exploring the link between smartphone use and sleep quality: a systematic review, Sleep Research, 2025
7. Singh S et al., Cochrane Database of Systematic Reviews, 2023: Blue-light filtering spectacle lenses for visual performance, sleep, and macular health in adults
8. Greco V et al., Sleep, 2023: Wearing an eye mask during overnight sleep improves episodic learning and alertness
9. Hu RF et al., Cochrane Database of Systematic Reviews, 2015: Non-pharmacological interventions for sleep promotion in the intensive care unit
10. The Ohio State University Wexner Medical Center: Is it harmful to sleep with your eyes open?

The source list at the end of a live article: the National Eye Institute, Johns Hopkins, Cochrane reviews and more.

Our editorial policy page: who writes, where the facts come from, how to report a mistake.

- Every paid placement says "Sponsored" and links are marked rel="sponsored".
- Eye-related brands only: glasses, sunglasses, sleep, desk comfort, eye care, kids' eye products.
- No health claims: we describe what a product is, never that it treats, prevents or improves anything.
- We only feature what we have tried, and a review is never guaranteed to be positive.
- You see the text before it is published.

WHO READS OCUFUSE

People who spend long days at screens

- Office and remote workers looking for a more comfortable desk setup
- Students and gamers who want better screen break habits
- People getting ready for an eye appointment who keep notes and photos
- Parents reading about screens, glasses and eye patching for kids

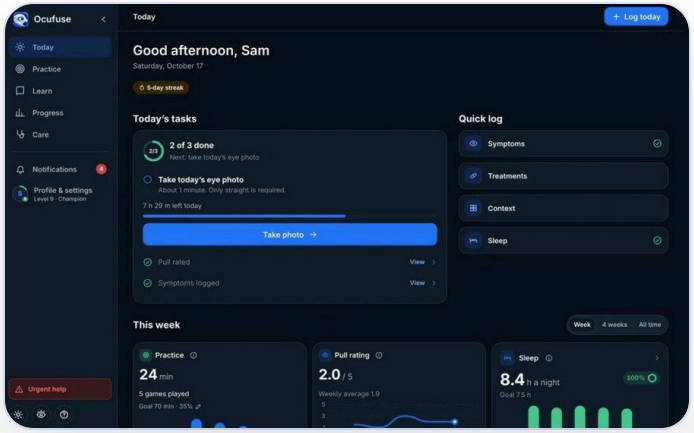

44

visual games: 28 in the app and 16 free on the site

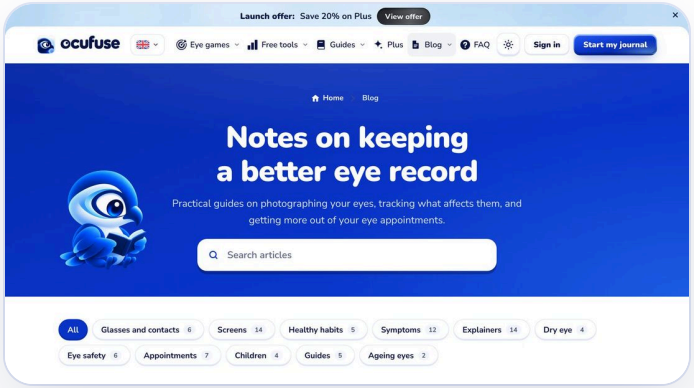

24

guide modules people read in the app

We are a young site. We share real numbers from our analytics when you ask, never estimates.

The Ocufuse web app at app.ocufuse.com: eye journal, games and guides.

The Ocufuse blog, 79 articles.

Prices in USD. No payment until you approve the text; invoice after approval. Every placement is shown at ocufuse.com/partners.

NEXT STEP

Reply and tell us what you sell

1

Tell us your product

Which products you most want people to know about, and who handles marketing.

2

We suggest where it fits

The list, article or review that suits it. Starting with one small placement is fine.

3

Review and go live

You approve the text, it goes live labelled, and you get the live links and your report.
