HOW WE KEEP IT HONEST

Readers trust us because ads never pass as advice

- Every paid placement says "Sponsored" and links are marked rel="sponsored".
- Eye-related brands only: glasses, sunglasses, sleep, desk comfort, eye care, kids' eye products, eye tracking.
- No health claims: we describe what a product is, never that it treats, prevents or improves anything.
- We only feature what we have tried, and a review is never guaranteed to be positive.
- You see the text before it is published.
